You can make syndication selections on newly-entered listings, as well as Active status listings.

- All Active status listings are being updated on the evening of March 8 to deselect the **Confirm Internet Display and Syndication Settings** option. When editing any Active listing, you'll need to go to the **Internet Display** tab to review your selections and re-select this option.
- By proactively choosing the Denver Post as one of your syndication channels, your listings will be available for display when the Denver Post site launches (currently scheduled for late March).
Note: Denver Post has been automatically selected for all active offices. Listings will only be available to the Denver Post if this option is selected as a syndication channel on that listing.
