

Matrix

Ranking Report now available

- A new Ranking Report has been made available to all agents. This report can be found in Matrix by going to the Stats tab → Productivity Reports → Ranking Report. This means any agent will be able to run an Agent Ranking Report.

- Managing Brokers will continue to see the "Ranking Report for My Agents" option, in addition to the new Ranking Report.

- When using any of the Ranking Reports, you can narrow down to specific offices or agents by entering the names or IDs in the text field, or searching using the lookup.

Agent Name or MLSID

Office Name or MLSID

- The "Group" option lets you switch between generating an Agent Ranking Report (when grouped by agent) or an Office Ranking Report (when grouped by office).

Ranking Report

Start Date: 01/01/2017 End Date: 12/20/2017

Group: Agent (dropdown menu with options: Agent, Office)

Top: 25

Agent Name or MLSID Office Name or MLSID

Parking Search Expanded

Because we now support additional parking types, the number of rows that can be added to the Parking Search has been increased to 11. Rows are added by clicking the 'More' button, on the search control.

Parking Type	# of Spaces	Length	Width
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

And Or

“Possible Use” available as addable search control for Land searches

Using the Add/Remove link, agents can now add ‘Possible Use’ to their Land search criteria. This field was already available under Residential and Cross Property searches.
